Updates from

The Executive Director

2011 was the most fiscally successful year the foundation has ever had. However, our financial success does not outshine our many other accomplishments during the year.

After many years of appealing to our Congressional representatives, the U.S. Senate passed S. Res. 248 proclaiming September as National Brain Aneurysm Awareness Month. Thanks to all of you who helped us in our Rally Congress online petition to bring this distinction to the devastating disease of brain aneurysms.

In our continued efforts to provide support and education to as many people as possible, we were pleased to establish a series of webinars led by Dr. Aaron Cohen of Indianapolis. People from all over the world can log in, listen and see a great presentation from various medical professionals in the field, and have the chance to have questions answered during the live webinar.

Our social media efforts have also been increased by updating our Facebook page to be more interactive, establishing a Twitter account, and continuing to promote our on-line support group that is accessed daily by hundreds of people.

We were also proud to continue our research program by awarding 8 grants totaling \$160,000.

So a big *thank you* to all of our 2011 supporters. It has been your donations of time, talent, and money that have allowed The Brain Aneurysm Foundation to continue the battle each day to work towards early detection, providing research grants, improving our support methods, as well disseminating educational and awareness materials.

Your input and support is what makes The Brain Aneurysm Foundation. I look forward to working with you in 2012 and heading towards the goal of raising \$1,000,000!

Christine Buckley, Executive Director

The Medical Advisory Board Executive Director

The end of the year marks a time for reflection on accomplishments of the past. The Brain Aneurysm Foundation has been fortunate in 2011. It demonstrated continued growth financially and in many awareness activities due to the support of so many of you. The Brain Aneurysm Foundation has funded a total of \$475,000 of research since the inception of the grant program in 2007. In 2011 the largest amount of funding to date, \$160,000, was distributed to a number of different research projects by a competitive selection process. This funding plays a vital role in energizing neuroscience leaders to find better ways to identify brain aneurysms and manage aneurysmal subarachnoid hemorrhage, as well as the complications of vasospasm and stroke. Research funding from The Brain Aneurysm Foundation has provided valuable seed money for a number of studies that were used to demonstrate the feasibility of a project which is now being developed into either treatment or diagnostic strategies.

Fundraising continues to support the next round of research grants. One new grant that has been established will be the Christopher C. Getch, MD Chair of Research. We were all deeply sorrowed by the loss of Dr. Getch from the neurovascular community when he passed away unexpectedly in January 2012. Chris was extremely supportive of The Brain Aneurysm Foundation's efforts to enlighten the general public, as well as his medical colleagues, on the nature of brain aneurysms and the possible serious consequences. This Research Chair will help commemorate his many positive contributions to The Brain Aneurysm Foundation.

On behalf of the Medical Advisory Board, I applaud you for all your efforts in 2011. I thank you for your continued support of The Brain Aneurysm Foundation and your commitment to pursuing research, education, and awareness and support for patients and families of this often devastating disease. I am hopeful 2012 will be as rewarding and that through our research, lives will be saved.

Christopher S. Ogilvy, MD, Executive Director, Medical Advisory Board, The Brain Aneurysm Foundation

2011 Financial Summary*

2011 Revenues - \$792,697

2011 Expenses - \$650,276

Since 1994, when The Brain Aneurysm Foundation was established in Boston on August 19, 1994, as a public charity, our funding has been targeted to

providing critical awareness, education, support and research funding to reduce the

incidence of brain aneurysm ruptures. The foundation has no endowment; every

dollar we raise is deployed to advance research to reduce the incidence of brain

aneurysm ruptures, to create wider awareness of brain aneurysms, to provide

support for those affected by brain aneurysms, and to educate patients, their

families, and the medical community about brain aneurysms.

The Brain Aneurysm Foundation keeps a sharp eye on expenses and strives to

maintain a low overhead.

* Audited financial results for 2011 not currently available.

Research Grants

THE BRAIN ANEURYSM FOUNDATION AWARDED EIGHT GRANTS SUPPORTING OUR COMMITMENT TO INVEST IN BRAIN ANEURYSM RESEARCH

The Brain Aneurysm Foundation awards research for basic scientific research directed at early detection, improved treatment modalities, and technological advances that will ultimately improve outcomes for patients with brain aneurysms. The foundation’s Research Grant Committee, headed by Robert Rosenwasser, MD, FACS, Professor of Radiology and Neurosurgery at Thomas Jefferson University Hospital , reviews all grant applications and determines the grant recipients.

On September 22, 2011 at the New York Athletic Club, overlooking Central Park, the foundation had our 5th Annual Research Grant Symposium. Thanks to your continued dedication to research to improves the lives of those affected by a brain aneurysm tomorrow, the foundation was able to award eight grants totaling \$160,000 in 2011. This made the total amount of grants provided in the last five years total approximately half a million dollars! The funding we have provided has enable our recipients to move their projects forward and be their first step in securing further funding from other groups such as the NIH and AHA.

The evening was hosted by David Chalif, MD of North Shore LIJ Brain Aneurysm Center and the Cushing Neuroscience Institute and the guest presenter was Dr. L. Nelson Hopkins, Professor and Chairman of Neurosurgery, Professor of Radiology and Director of the Toshiba Stroke Research Center at the University of Buffalo.

The 2011 grant recipients include:

Carol W. Harvey Memorial Chair of Research - \$25,000

William J. Mack, MD, Assistant Professor of Neurosurgery, Keck School of Medicine, University of Southern California, Los Angeles, CA.
“MRI Perfusion and Permeability and Matrix Metalloproteinase 9 levels: Association with Cerebral Vasospasm Following Aneurysmal Subarachnoid Hemorrhage”

North Shore University Hospital, Brain Aneurysm Center Chair of Research - \$25,000

Jinglu Ai, PhD, MD, Research Associate, St. Michael’s Hospital, University of Toronto, Toronto, ON.
“Molecular Mechanisms of Memory Loss Following Subarachnoid Hemorrhage”

Shirley Dudek Demmer Chair of Research - \$25,000

Tomoki Hashimoto, MD, Associate Professor, University of California, San Francisco, San Francisco, CA.
“Pharmacological Prevention of the Rupture of Intracranial Aneurysm”

Annie’s Chair of Research - \$20,000

Koji Hosaka, PhD, Instructor, University of Florida, Gainesville, FL.
“Aneurysm Healing and Vascular Repair: Modulating Inflammatory Process via MIP-1a and MIP-2”

Cynthia Lynn Sherwin Chair of Research - \$20,000

Awareness and Education

SEPTEMBER ESTABLISHED AS NATIONAL BRAIN ANEURYSM AWARENESS MONTH

After four years of working towards having Congress establish September as National Brain Aneurysm Awareness Month, we achieved a great level of success this year by YOU joining our Rally Congress online petition initiative. YOU made the Senate hear your voice and with the key support of Senators Kerry (MA), Brown (MA) and Snowe (ME), the Senate passed the Senate resolution, S. Res. 248 and moving forward September will be recognized nationally as Brain Aneurysm Awareness Month. Also, it is important to note that 16 states

have also established September as awareness month and hopefully this number will continue to grow as well.

The foundation was an exhibitor at the Congress of Neurological Surgeons in Washington D.C. the first week of October. The conference allows the foundation the visibility to be amongst many of the top neurosurgeons from around the world for three days and allows us the opportunity to share with them our resources for their patients.

While in D.C for a conference in October, some of the foundation

representatives also had the chance to meet with both Senator Kerry and Senator Brown to thank them for sponsoring and co-sponsoring the Senate resolution 248. Both Senators were very gracious and happy to support the work of the foundation.

We are grateful to these Massachusetts Senators as well as Senator Olympia Snowe of Maine for supporting this important legislation which will give a voice to all those impacted by a brain aneurysm at the same time each year.

ONLINE WEBINARS REACHING FAR AND WIDE

The foundation is very grateful to Dr. Aaron Cohen-Gadol of Goodman Campbell Brain and Spine, Indiana University Department of Neurological Surgery for providing the forum for support group webinars. This allows patients who cannot get to a support group or who do not have a support

group in their area, the opportunity to have a support group come to them.

Participants are able to submit questions to the guest presenter by typing them in. The guest presenter, whether a physician, nurse, or therapist, will try to answer as many questions as possible. The webinars last about 45-60 minutes.

We have had people on the webinars from as far as Argentina, England, and Australia.

The foundation is proud to have presented five webinars this year since we started in August and look forward to continuing them on a regular basis in 2012.

NEUROLOGICAL/NEUROSURGICAL CONFERENCES

The Brain Aneurysm Foundation attends at least two neurological/neurosurgical conferences a year, allowing the foundation the opportunity to present its educational and support materials to medical professionals who care for aneurysm patients on varying levels. It is critical that the medical community is aware of our resources so they can share them with their patients. The foundation's patient materials help the physicians serve their patients in a full continuum of care. The conferences also provide an occasion for the foundation to interact with the medical industry professionals so as to open pathways for developing future relationships.

Support Services

SUPPORT SERVICES

The Brain Aneurysm Foundation eases the diagnosis, procedural and recovery process for survivors and families by providing phone support, email support, support groups, our main website, and our support website.

The online support website at www.bafsupport.org, which The Brain Aneurysm Foundation launched in 2010, has grown and has now over 2,400 members, all affected by brain aneurysms either as survivors or family members.

SUPPORT GROUPS

Support groups offers brain aneurysm survivors and their families the opportunity to share life experiences, work through challenges and find new ways to adapt to changes in their life. The goal of support group meetings is to help alleviate fears and concerns through education and group discussions. Survivors realize that they are not alone.

Survivors and caregivers share their experiences and show support to those that are in need. The healing of the spirit is just as important as that of the body.

In 2011, the number of support groups continued to grow nationwide. Support groups now exist in 52 locations. To find meeting times for a specific group, check online at www.bafound.org/support-2

The Brain Aneurysm Foundation's Mission

To provide support and educational materials to the medical community, the newly diagnosed, survivors, family members, friends and the general public regarding the facts, treatment options, and recovery process for brain aneurysms. With the help of the medical community, remain steadfast and earnest in the pursuit of brain aneurysm research that can directly benefit those affected.
