

Webinar Presenter - Dr. Stavropoula Tjoumakaris

Dr. Stav Tjoumakaris is one of the first female dual-trained cerebrovascular and endovascular neurosurgeons. She completed her medical school, residency and fellowship training at Thomas Jefferson University with Highest Honors. She is appointed at Jefferson as Professor of Neurological Surgery and Director of the Cerebrovascular & Endovascular fellowship training program. She specializes in open microsurgical and minimally invasive techniques for the treatment of cerebral aneurysms. Dr. Tjoumakaris is an active educator and prolific researcher with an international profile and over 300 peer-reviewed publications.
